

CHECKLIST: SETTING UP THE PRENATAL PRIMER™ IN YOUR PRACTICE

LENETIX®
MEDICAL SCREENING LABORATORY, INC.

a diagnostic company

- Sign up for the Prenatal Primer using the password provided to you by Lenetix. You can sign-up by clicking on the link on the Lenetix website or going directly to:
<http://www.prenatalprimer.com/admin/register.jsp>.
- When you sign-up, you will be prompted to create a login name for your practice. You will use this name to login to the Prenatal Primer admin website and patients will use this name when they register. In addition to other basic information, you will also be asked to select which tests and procedures are available to your patients.
- After entering your practice information, you will be asked to select which tests and procedures are available to your patients. The Prenatal Primer will be customized to your practice based on the tests and procedures you select. You will be able to update your account later if more tests and procedures become available through your practice.
- Once you've registered, you will be prompted to create a password for your patients. Your patients will use this password and the practice login name to access the Prenatal Primer.
- If desired, you can attend a web meeting hosted by Lenetix to see a demo of the Prenatal Primer and discuss any questions you might have. You can also set up a demo account for your practice so that you can review the content in the Prenatal Primer at your own pace.
- If desired, set up a link to the Prenatal Primer (www.prenatalprimer.com) on your practice's website.
- Determine the workflow for referring your patients to the Prenatal Primer and begin referring patients.
- An instruction sheet for patients, in PDF format, is available from the admin website. Step #2 of the instructions pdf is pre-filled with your patient access password. Just print out or email a copy of this pdf to your patients.
- Contact DNA Direct or Lenetix if you have any questions or feedback:
DNA Direct: leah@dnadirect.com or 415-646-0222 ext 225
Lenetix: questions@lenetix.com or 516-320-6370
